Number of AMT Taxpayers (millions). Baseline: 4.8

Proposal: 6.4

* Non-zero value rounded to zero; ** Insufficient data

(1) Calendar year. Baseline is current law. Proposal would reduce statutory individual income tax rates from 10, 15, 25, 28, 33, 35, and 39.6 percent to 9, 14, 24, 27, 32, 34, and 38.6 percent. There would be no change to the preferential rates on capital gains and dividends or to the rates under the alternative minimum tax. For a description of current law, see:

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate taxes; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

* Non-zero value rounded to zero; ** Insufficient data

(1) Calendar year. Baseline is current law. Proposal would reduce statutory individual income tax rates from 10, 15, 25, 28, 33, 35, and 39.6 percent to 9, 14, 24, 27, 32, 34, and 38.6 percent. There would be no change to the preferential rates on capital gains and dividends or to the rates under the alternative minimum tax. For a description of current law, see:

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.
