Number of AMT Taxpayers (millions). Baseline: 0

Proposal: 0

* Non-zero value rounded to zero; ** Insufficient data

(1) Calendar year. Baseline is current law with the individual alternative minimum tax (AMT) repealed and individual income tax rates of 12, 25, and 33 percent rates with the 25 and 33 percent bracket thresholds the same as under current law. Proposal would implement a 15-percent top rate on qualifying pass-through income. Qualifying pass-through income would be 100 percent of Schedule C/F, partnership, and rental income; and all S corporation profits. Does not include impact of income shifting.

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate taxes; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

* Non-zero value rounded to zero; ** Insufficient data

(1) Calendar year. Baseline is current law with the individual alternative minimum tax (AMT) repealed and individual income tax rates of 12, 25, and 33 percent rates with the 25 and 33 percent bracket thresholds the same as under current law. Proposal would implement a 15-percent top rate on qualifying pass-through income. Qualifying pass-through income would be 100 percent of Schedule C/F, partnership, and rental income; and all S corporation profits. Does not include impact of income shifting.

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.
