Proposal: 0.2

\* Non-zero value rounded to zero; \*\* Insufficient data

(1) Calendar year. Baseline is the law currently in place as of January 1, 2020. Proposal would (a) increase the maximum EITC to \$3,111 for filers with no custodial children, \$6,770 for filers with one child, \$11,190 for filers with two children, and \$12,588 for filers with three or more children, (b) increase the phase in rate to 30%, 65.28% and 76.8% and 86.40%, respectively, and (c) increase the minimum and maximum income levels to receive the maximum credit and phase the credit out at a rate of 15.98% for filers with no custodial children. Assumes that 50% of current-law non-filing childless earners (increasing to 60% by 2025) would begin filing to take the expanded credit.

Assumes proposal would go into effect January 1, 2020.

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2019 dollars): 20% \$25,300; 40% \$50,700; 60% \$91,200; 80% \$163,600; 90% \$239,600; 95% \$339,200; 99% \$818,700; 99.9% \$3,803,800.

(4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

\* Non-zero value rounded to zero; \*\* Insufficient data

(1) Calendar year. Baseline is the law currently in place as of January 1, 2020. Proposal would (a) increase the maximum EITC to \$3,111 for filers with no custodial children, \$6,770 for filers with one child, \$11,190 for filers with two children, and \$12,588 for filers with three or more children, (b) increase the phase in rate to 30%, 65.28% and 76.8% and 86.40%, respectively, and (c) increase the minimum and maximum income levels to receive the maximum credit and phase the credit out at a rate of 15.98% for filers with no custodial children. Assumes that 50% of current-law non-filing childless earners (increasing to 60% by 2025) would begin filing to take the expanded credit. Assumes proposal would go into effect January 1, 2020.

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2019 dollars): 20% \$17,600; 40% \$34,500; 60% \$59,600; 80% \$100,200; 90% \$145,100; 95% \$203,500; 99% \$472,700; 99.9% \$2,217,700.

(4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

Note: Elderly tax units are those with either head or spouse (if filing jointly) age 65 or older.

(1) Calendar year. Baseline is the law currently in place as of January 1, 2020. Proposal would (a) increase the maximum EITC to \$3,111 for filers with no custodial children, \$6,770 for filers with one child, \$11,190 for filers with two children, and \$12,588 for filers with three or more children, (b) increase the phase in rate to 30%, 65.28% and 76.8% and 86.40%, respectively, and (c) increase the minimum and maximum income levels to receive the maximum credit and phase the credit out at a rate of 15.98% for filers with no custodial children. Assumes that 50% of current-law non-filing childless earners (increasing to 60% by 2025) would begin filing to take the expanded credit.

Assumes proposal would go into effect January 1, 2020.

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2019 dollars): 20% \$17,600; 40% \$34,500; 60% \$59,600; 80% \$100,200; 90% \$145,100; 95% \$203,500; 99% \$472,700; 99.9% \$2,217,700.

(4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.
