Proposal: 0.8

\* Non-zero value rounded to zero; \*\* Insufficient data

(1) Calendar Year. Baseline is the law currently in place as of December 12, 2021. Provision would increase the limit on deductible state and local taxes from \$10,000 to \$80,000. Any additional deduction above the amount allowed by the current-law \$10,000 limit would phase out rateably over an adjusted gross income (AGI) range of \$100,000 starting at \$900,000 for married couples filing a joint return (\$450,000 for singles and \$675,000 for heads of household). For married individuals filing a separate return, the limit would increase from \$5,000 to \$40,000 and any additional deduction would phase out between \$450,000 and \$500,000 of AGI.

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate taxes; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

\* Non-zero value rounded to zero; \*\* Insufficient data

(1) Calendar Year. Baseline is the law currently in place as of December 12, 2021. Provision would increase the limit on deductible state and local taxes from \$10,000 to \$80,000. Any additional deduction above the amount allowed by the current-law \$10,000 limit would phase out rateably over an adjusted gross income (AGI) range of \$100,000 starting at \$900,000 for married couples filing a joint return (\$450,000 for singles and \$675,000 for heads of household). For married individuals filing a separate return, the limit would increase from \$5,000 to \$40,000 and any additional deduction would phase out between \$450,000 and \$500,000 of AGI.

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(5) For income categories for which the baseline tax burden is negative, a positive percent change in average federal tax indicates a net increase in federal subsidies, and a negative percent change indicates a net decrease in federal subsidies.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.
