(1) Calendar year.

(2) Income concept is AGI plus the employer share of payroll tax. Tax units with negative income are excluded from the lowest income class but are included in the totals.

(3) Includes both filing and non-filing units. Tax units that are dependents of other taxpayers are excluded from the analysis.

(4) Net of refundable credits (earned income tax credit and refundable child tax credit).

(5) Includes both the employee and employer portion of social security and medicare tax.

(6) Average income plus payroll tax as a percent of average income.
