Number of AMT Taxpayers (millions). Baseline: 3.7 Proposal: 3.7

(1) Calendar year. Baseline is 2008 current law assuming extension and indexation for inflation of the 2007 AMT patch. Proposal provides a tax rebate of up to \$600 (\$1,200 for married couples filing a joint return) plus \$300 per dependent. The rebate would be limited by the sum of individual income tax liability (if positive) and 15 percent of earnings (defined as wages plus self-employment income, if positive).

(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see <http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes both filing and non-filing units but excludes those that are dependents of other tax units.

(4) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
