Number of AMT Taxpayers (millions). Baseline: 5.1

Proposal: 4.1

(1) Calendar year. Administration baseline extends the 2009 AMT patch and indexes the AMT exemption, rate bracket threshold, and phaseout exemption threshold for inflation; makes the 2001 and 2003 individual income tax cuts permanent and makes 2009 estate tax law permanent. The proposal would: (a) reinstate the 39.6 percent tax rate; (b) reinstate the 36 percent tax rate with a threshold of \$250,000 less the standard deduction and two personal exemptions for married couples filing jointly and \$200,000 less the standard deduction and one personal exemption for single filers, indexed for inflation after 2009; (c) reinstate the personal exemption phaseout and limitation on itemized deductions for those taxpayers with AGI over \$250,000 (married) and \$200,000 (single), indexed for inflation after 2009; and (d) impose a 20 percent rate on capital gains and qualified dividends for those taxpayers in the top two brackets.

(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) The cash income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2009 dollars): 20% \$19,429, 40% \$37,634, 60% \$65,903, 80% \$112,079, 90% \$162,348, 95% \$227,254, 99% \$601,435, 99.9% \$2,737,383.

(4) Includes both filing and non-filing units but excludes those that are dependents of other tax units.

(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

Source: Urban-Brookings Tax Policy Center Microsimulation Model (version 0509-1).

(1) Calendar year. Administration baseline extends the 2009 AMT patch and indexes the AMT exemption, rate bracket threshold, and phaseout exemption threshold for inflation; makes the 2001 and 2003 individual income tax cuts permanent and makes 2009 estate tax law permanent. The proposal would: (a) reinstate the 39.6 percent tax rate; (b) reinstate the 36 percent tax rate with a threshold of \$250,000 less the standard deduction and two personal exemptions for married couples filing jointly and \$200,000 less the standard deduction and one personal exemption for single filers, indexed for inflation after 2009; (c) reinstate the personal exemption phaseout and limitation on itemized deductions for those taxpayers with AGI over \$250,000 (married) and \$200,000 (single), indexed for inflation after 2009; and (d) impose a 20 percent rate on capital gains and qualified dividends for those taxpayers in the top two brackets.

(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see <http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) The cash income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2009 dollars): 20% \$13,268, 40% \$24,875, 60% \$42,021, 80% \$68,444, 90% \$98,198, 95% \$139,231, 99% \$363,345, 99.9% \$1,676,752.

(4) Includes both filing and non-filing units but excludes those that are dependents of other tax units.

(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
